

Subject: Groove KKFS HCRI launch + Groove accessories
Ref: IM-0168
Category: Product launch/Product Update
Date: 26-09-16

Dear All,

Following global feedback, we are now releasing high CRI versions of the popular Groove family and KKFS products. As well as producing a new set of lighting and mounting accessories for the Groove Light.

High CRI launch

Details:

Groove Light – 2700K/3000K
Groove IN – 2700K/3000K
KKFS – 2700K/3000K
CRI has been upgraded from ~65 to 90+ CRI

New colours –

The new colours for the Groove IN, Groove Light and KKFS products are 2700K and 3000K and are indicated on the code table 2700K (HCRI) and 3000K (HCRI).

Spec sheets –

Separate spec sheets have been produced for the new high CRI options, while the current spec sheets remain detailing the non-updated colours.

Certification –

- Groove family products and KKFS products are all now fully UL listed as indicated on the spec sheets and website.
- LM79 testing by LUS TXI for light data.

Availability:

These new product options are now available for order. Please contact your local KKDC representative for more details.

Please visit the website family pages for all updated documentation.

Groove Light accessories

2 lighting accessories and 2 mounting accessories are being added to the Groove Light accessories.

Lighting Accessories:

Groove Light -X – A cross shaped junction to allow for cross shaped designs.

Groove Light-L – An L shaped section to allow for 90° corners.

Details:

Output has been matched to the linear product equivalents. The same PCB is used internally.

Mounting options:

KKCP-16 – Clip

KKCH-01 – PCV channel

Details:

These 2 new mounting options for Groove Light have been chosen to allow the maximum installation options with minimal components; with regards to adjustable mounting depth and first fix requirement.

KKCP-16 Clip allows installations with 2 clips per meter, clips can also be used to align products when butting end to end.

KKCH-01 PVC channel can either be cut into sections as required or use in equal length to Groove light, depending on the installation. When the channel spans products butted end to end it ensure alignment.

Availability:

These new Groove Light Accessory options are now available for order. Please contact your local KKDC representative for more details.

Please visit the Groove Light family page on the global website for installation details for the new Groove accessories and mounting options.
