## New KKDC R&D Centre Opens in Seoul...

KKDC is proud to announce the opening of our new R&D Centre facility in the vibrant City of Seoul, South Korea.

Fast becoming a technology hub within South Korea, the KKDC R&D Centre is situated within the newly developed Gangseo-gu district of Seoul with great international communication links furthering expansion of the KKDC brand.

Housing Cutting Edge technology such as an 80-inch integrating Sphere-photometer and Sphere-spectroradiometer System, KKDC remains on course to further expand the product range servicing lighting designers & architectural specifiers worldwide.
